

# Pathway Activities

Williamson Park, Quernmore Road, Lancaster, LA1 1UX

- Find different shaped leaves – look at the patterns. How many points does each leaf have?
- Different sized leaves – are they smaller than your hand, bigger than your hand?
- What do they feel like? Rough, smooth, spiky, oily, hard, soft, What do they look like? Shiny, dull, sharp, lines, green, brown, yellow, orange, red etc.
- Can you make a mud print with your feet that I could follow? Can you make a leaf print with mud? Can we make a face out of leaf prints? Can we make other animals out of leaf prints?
- Logs/sticks – how long – can you jump over the stick? Is the stick taller than you/shorter than you?
- Stones (along the pathway) Can you find a stone longer than your foot? Can you find a stone shorter than your foot? Can you find a stone with a bug on it?
- Can you look up into the trees and spot a bird, a squirrel a box? Who might live in that box – bats, birds – why is it a good place for them to live?
- Trees – how many branches can you see? Who has the widest trunk? Is it wider than your arms when wrapped around it?
- Steps – how many steps will it take us to get to that tree?
